Hi all, I just finished my first hifi mockups for my capstone project, GoodHarvest! This is an app designed to make it easier to eat more seasonal, local produce. Would love any feedback on my designs — happy to return the favor!

I haven't been super active on slack in a while, but I'm getting closer and closer to starting my capstone project... Just wanted to say that this looks awesome! I love your color and typography choices 😊

Good Job Andie!
